CAREER SUMMARY

Self-Taught Results-driven Front-End Developer with 4 years of hands-on experience specializing in building responsive, user-friendly web applications using React.js, Next.js, and Shopify. Proficient in creating scalable and maintainable front-end architecture, optimizing performance, and delivering seamless UI/UX experiences. Adept at integrating APIs, managing state with Redux and Context API, and working with headless CMS and e-commerce platforms. Strong understanding of modern JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, and RESTful APIs. Known for collaborating closely with design and backend teams to deliver high-quality solutions on time. Passionate about clean code, performance optimization, and continuous learning in the ever-evolving front-end ecosystem.

EXPERTISE

React.js (Hooks, Context API, Redux) | HTML5, CSS3, | JavaScript (ES6+) | TypeScript | Tailwind CSS | Bootstrap | RESTful APIs | Responsive & Mobile-First Design | Git / GitHub / Version Control | Performance Optimization & Code Splitting | Component-based Architecture & Reusability | Cross-Browser Compatibility | Agile/Scrum Development | Figma to Code Conversion | Debugging & Troubleshooting | WordPress | Angular | Supabase

PROFESSIONAL EXPERIENCE

SENIOR REACT JS & NEXT JS DEVELOPER | **Maham AI** | Riyadh, Saudi Arabia — July 2025 – Continue

- Designed and developed dynamic, responsive, and high-performance web applications using Frontend Technologies (React js/ WordPress/Next js) .
- Develop, test, and maintain responsive web applications using React.js and Next.js.
- Collaborate with UI/UX designers to transform wireframes and mockups into functional applications.
- Optimize applications for maximum speed, performance, and SEO (server-side rendering & static site generation).
- Work closely with backend engineers to integrate RESTful APIs services.
- Ensure cross-browser compatibility and responsiveness across devices.
- Write clean, maintainable, and scalable code following industry best practices

SENIOR FONT END DEVELOPER | **7 Kings Code** | Lahore, Pakistan — Jul 2024 – May 2025

- Designed and developed dynamic, responsive, and high-performance web applications using Frontend Technologies (React js/ WordPress/Next js) .
- Participated in Agile development processes, including sprint planning, daily standups, and retrospectives, ensuring consistent progress and timely delivery of features.
- Reviewed and mentored junior developers, providing guidance on code quality, best practices, and troubleshooting complex technical issues.
- Implement custom features Development in React js using the latest hooks, redux, react query & optimization

ASSOCIATE SOFTWARE ENGINEER | **Netsol Technologies Limited** | Lahore, Pakistan — Apr 2022 – July 2024

- Software Development as per the Functional Specification, Unit Testing, Follow-up with SQA Team for the Testing.
- participated in code reviews, identified and resolved software bugs. and optimized code for better performance.

- Design & develop responsive web Pages using HTML, CSS, JavaScript, and Bootstrap.
- participated in code reviews, identified and resolved software bugs. and optimized code for better performance.

EDUCATION

Bachelor's Degree | Bs Information Technology | Punjab University 2015 – 2019

MAJOR CONTRIBUTIONS

JOBSSHOPPER | Jobs Portal

Developed a full-featured job portal platform – ***Jobsshopper*** – allowing both employers and candidates to manage job postings and applications. Included a secure admin dashboard for platform oversight and analytics.

Key Features & Responsibilities:

- Employer Panel:
  - Post, edit, and manage job listings.
  - View and manage applicant profiles.
  - Real-time updates using API-driven dashboard.
- Candidate Panel:
  - Register and build a profile.
  - Search, filter, and apply for jobs.
  - Track application status and manage applied jobs.
- Admin Panel:
  - Monitor overall platform activity.
  - Manage users, job postings, and site content.
  - View analytics on job trends and user engagement.
- Implemented JWT authentication for secure login and role-based access (admin, employer, candidate).

TOOLS USED: React js (context api) | React Query | Tailwind css | Formik | Yup

WHOLESALE EZ | Wholesale Order Management Platform

Built -Wholesale EZ-, a comprehensive B2B wholesale management system that enables users to manage customers, products, orders, invoices, and generate reports – all from a responsive, mobile-friendly platform designed for ease of use.

Key Features & Responsibilities:

- Developed intuitive UI for managing:
  - Customers, Products, Orders, and Invoices.
  - Sales performance and reports via an interactive dashboard.
- Designed dynamic sales dashboards with filtering, sorting, and performance metrics.
- Enabled placing and tracking orders with real-time status updates
- Applied Tailwind CSS for a clean, responsive, and consistent UI across device
- Achievements:
  - Improved order management efficiency
  - Delivered a fully mobile-responsive platform, enhancing field usability
  - Built scalable and modular front-end architecture for future feature growth

TOOLS USED: React js (context api) | Redux Tool Kit | React Query | Tailwind css | Formik | Yup | Firebase

VICTORHUB | Decentralized Wealth Platform

Developed a decentralized financial platform aimed at addressing modern financial challenges and empowering users to maximize wealth securely and independently. The platform enables users to earn in USDT while maintaining full financial sovereignty.

Key Features & Responsibilities:

- Integrated Web3 wallet (MetaMask, Trust Wallet) for secure, decentralized user authentication and transaction signing.
- Enabled placing and tracking orders with real-time status updates.
- Applied Tailwind CSS for a clean, responsive, and consistent UI across device.
- Provided real-time updates of user earnings, balances, and transaction histories.
- Created responsive, user-friendly dashboards with Tailwind CSS.

TOOLS USED: React js | wagmi | React Query | Tailwind css | Formik | Yup | web3 | framer-motion

VANLINKLOGISTICS | Courier Service Platform

Developed Smart Courier, an interactive courier service platform allowing users to easily schedule pickups and deliveries by entering pickup and drop-off postal codes. The platform includes a real-time dashboard to track delivery status and manage orders efficiently.

Key Features & Responsibilities:

- Created user-facing form to schedule shipments by entering:
  - Pickup postal code
  - Drop-off postal code
- Integrated Google Maps API to estimate distance, delivery route, and cost calculation.
- Applied Tailwind CSS for a clean, responsive, and consistent UI across device.
- Integrated Google Maps API to estimate distance, delivery route, and cost calculation
  - Order status (pending, picked up, in transit, delivered).
  - Delivery history with filtering and search
- Implemented JWT authentication for secure login and user session handling.
- Created responsive, user-friendly dashboards with Tailwind CSS.

TOOLS USED: React js | Google Maps API | Tailwind CSS | Formik | Yup

OTHER PROJECTS

LASHPALS & MeandMirai | Shopify Store

Shopify Store Development:

- Designed and developed custom Shopify stores for brands like MeandMirai and LashPal.
- Built and customized key pages: Product pages, Landing pages, About, Contact, and promotional sections
- Implemented responsive layouts and custom sections using Liquid and Shopify theme settings.

ECOMENABLE | Blog & CMS

Key Features & Responsibilities:

- Created a blog posting platform using Supabase for database and authentication.
- Developed rich content editor and post management system for easy blog publishing.

LANDING PAGE DESIGN | Responsive Front-end

Key Features & Responsibilities:

- Built and deployed multiple high-conversion marketing landing pages, including:
  - Healthcare Management System (HMS) & Company landing pages
  - Multiple product landing pages for ad campaigns
- Used React.js with Tailwind CSS for modern UI/UX and Bootstrap for legacy layouts.

EXAMISM | Exam Booking Dashboard

Key Features & Responsibilities:

- Developed fully responsive UI using Bootstrap and custom JavaScript for dynamic user interactions.
- Created clean, intuitive layouts for:
  - Exam booking workflows
  - Voucher management
  - User history and activity tracking
- Built interactive components such as modals, dropdowns, and tab-based navigation without relying on third-party JS libraries.
- Ensured cross-browser compatibility and optimized performance for both desktop and mobile users.

SOFT SKILLS

Continuous learning and self-improvement | Collaboration with cross-functional teams | Time management and prioritization | Problem-solving and critical thinking | Strong communication and teamwork
